NUMBER: IR411  
DATE: Feb. 17, 2012

## PRODUCT:

## New Large Diameter and Buried Services Brochures now available

Two new brochures are now available to show the value Victaulic brings to large diameter piping systems.

The MB-010 large diameter brochure reviews our grooved and ring solutions for large diameter piping systems. A revised version of the brochure will be issued in the second quarter that will include the Depend-O-Lok line of products.

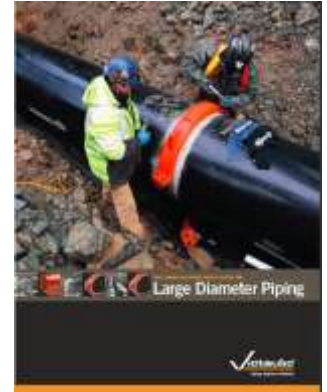

The MB-011 covers buried services and the many types of coatings, wraps and other protection that can be used in conjunction with Victaulic systems on buried services.

Both brochures can be downloaded from the Literature section of the Victaulic website and can be ordered on-line through the literature ordering system on the Victaulic web site.

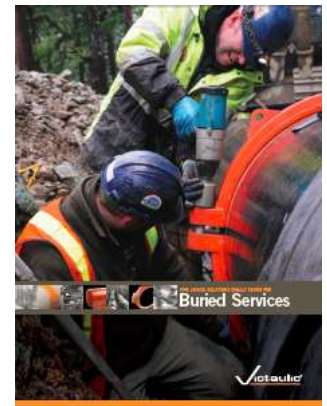

Click on the links below to download the pdf.
